

Logging into FDW to Change Password

- After logging into VersaPath select the “FDW” session and hit start.

Login to SecuRemote, only if you have not already done so.

- ◆ FDW Banner screen should appear.
- ◆ Type in FFIS User ID and assigned Password.
- ◆ Tab to New Password.
- ◆ Type in new another Password that is eight characters long, one of them being numeric.
- ◆ Press the F3 key on keyboard to end session.
